

LPS 1175 SR2 CERTIFIED DOORS NOW AVAILABLE

The SR2 SECURITY DOOR is a range of rated single leaf steel security doors to be utilised in situations where an increased deterrence is required. Typical applications for the SR2 SECURITY DOOR would include leisure facilities, schools and universities, housing association communal areas and general retail.

Key features of the SR2 SECURITY DOOR:-

- Certified to LPS 1175 level 2.
- Assa 765 high performance sash lock.
- Keys & cylinders can be registered to eliminate the chance of key copying.
- Double hinge to top of door for additional strength.
- Electro-Zinc coated steel for maximum corrosion resistance.
- Robust stainless steel hinges with integrated dog bolt.
- Incorporated anti-lever cover strip to closing edge of door leaf.
- Variety of thresholds.
- Available in a wide range of powder coatings to BS or RAL colours.

LPS 1175 SR 2 - Tool category 'B'

A more determined opportunist attack by bodily physical force and tools with a higher mechanical advantage

All our Security Rated 2 doorsets have withstood independent testing by the Loss Prevention Certification Board. Products certified to these security standards have resisted a series of professional attacks using a variety of hand tools such as hammers, crowbars, chisels and hacksaws.
